IML 300: Introduction to Creative Web Design

Week 14

Nov 25
DUE: Project 3 Part 3: Polished Prototype

Schedule
- A few students share their Project 3 Part 3
  - Share with us your current progress, the plan for the upcoming week, the places where you need feedback, bugs…
  - Claire, Sean, Chip, Milan, Isabel, Robynn, Jason, Davia….
- More HTML/CSS/JavaScript ([Slides](#))
- Pecha Kucha by **Lam**, **Isabel** and **Robynn**

- 'Desk Crit' Session in breakout rooms (Q and Emi will be in 2 breakout rooms to assist your project 1:1)

For Next Week
- Project 3 Part 4: Final Website utilizing HTML/CSS/JavaScript
  - You will use JavaScript to implement your 'interactivity plan' you shared a few weeks ago, like using p5.js (ideally but optional), jQuery (must have), etc. Your final project should have the complete HTML (structure), CSS (style), and JavaScript (interactivity).
  - Create an 'about' session in your project, it could be a pop-up info panel or an individual web page. Write a 150-200 word description of your project in the 'about' session. The description should include your thoughts on **what** (is this project), **why** (is it important), **who** (are you creating the website for), **how**(is this project responding to certain social justice issues). Please include your name as the creator in the 'about' session. Also, please include the description in your README.md file.
  - Share your project **Github code and live site link** and **your project description** to your Discord channel by 5 pm on Dec 2.
- Project 3 Presentation:
  - Sign up for [Project 3 presentation](#)
  - We will spend ~5 minutes on each person. You will do a demonstration of your Project 2 for ~3 minutes. We will have ~2 minutes of discussion about the work after your presentation.
- Reminder: In-class Learning Experience Evaluations next class
